

1 Universal rack THF 2983-1

2 Shelf made of round tubes

Universal racks

The sturdy universal racks consist of modules, which can be combined. They are made of stainless steel AISI 304 and are completely autoclavable. The glass bead blasted surface makes cleaning and disinfecting easy.

The following options are available:

- shelves made of round tube material, Ø 6 mm
- shelves made of metal sheet
- welded shelves
- fitted with feet
- fitted with autoclavable wheels
- screw-connected shelves

The universal racks can be delivered in various dimensions and as corner-fitting combination.

Type	Material	Dimensions W x D x H	Wheels	Design	Code-no.
